

# Crane Load Cell with Large Indicator

## DESCRIPTION

Crane Loadcell is ideal for crane, hoist & lifting applications Suitable for high capacity under rugged Applications; with Large display option; Ultra Precision Strain Gage based compact and rugged.

## Special Features

- Any capacity and any make crane loadcell can be configured with this Indicator.
- Configuration & Calibration can be done by mobile App
- Easy wireless configuration.

## APPLICATIONS

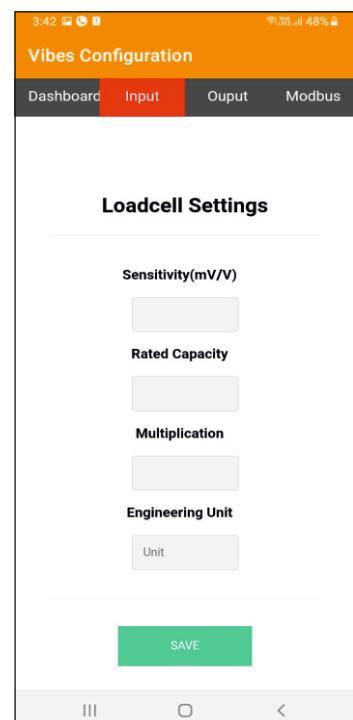

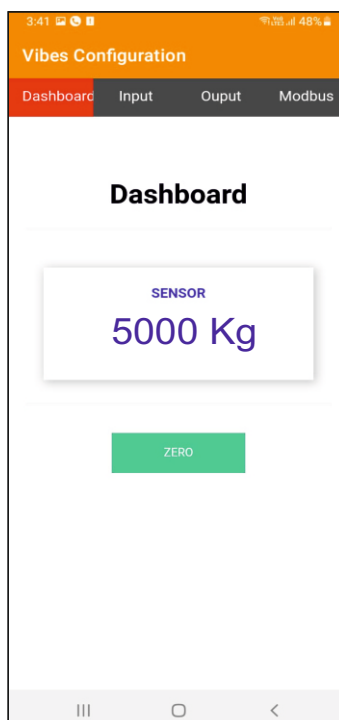

- Under hook crane weighing
- Crane load testing
- Beam proof testing
- Water bag calibration
- Cable tension measurement

## Crane Loadcell

- 3 to 50 TF Capacities available.
- Suitable mounting for crane applications.

## Large Display

- LED Dot Matrix Indicator
- Supply 230V AC
- 250 x 410 x 90mm
- 2 Relay output
- Optional: Analog Output
